### **Über die wissenschaftliche AIDS-Kritik**

<http://aids-kritik.de/aids/index.html>

HIV ist nicht die Ursache von AIDS.

Sämtliche HIV-Test- und -Nachweisverfahren sind unfähig eine HIV-Infektion anzuzeigen.

<http://www.rethinkingaids.de/inhalt.htm>

Ist HIV wirklich die Ursache von AIDS?

Eine verrückte Frage? Ist denn nicht längst zweifelsfrei bewiesen, daß HIV die Ursache von AIDS ist?"Nein!" behaupten viele Wissenschaftler, Ärzte, Journalisten usw. Diese Kritiker glauben nicht an ein tödliches Virus namens HIV. Sie behaupten, daß das Virus in Wahrheit völlig harmlos ist. Die meisten von ihnen sind der Überzeugung, daß AIDS nicht sexuell übertragen wird. Außerdem würden viele AIDS-Patienten an den giftigen Wirkungen der Anti-Viren-Medikamente sterben. Ein Teil der Kritiker stellt sogar die Existenz von HIV in Frage.

### **AIDS- und Seuchen-Mythen**

<http://www.klausblees.de/#AIDS-Mythen>

Zu den Themen, mit denen sich auch ansonsten kritische Menschen schwer tun, bei denen sogar beim überwiegenden Teil der Linken bürgerliche Positionen kritiklos nachgebetet werden, gehört ganz wesentlich AIDS.

VirusMyth: a web site maintained by Robert Laarhoven, documenting the HIV/AIDS controversy. Former home to the Rethinking AIDS web site.

<http://rethinkingaids.com>

Rethinking AIDS (RA) is a voluntary, open-membership association of people who have signed the petition agreeing that "It is widely believed by the general public that a retrovirus called HIV causes the group diseases called AIDS. Many biochemical scientists now question this hypothesis. We propose that a thorough reappraisal of the existing evidence for and against this hypothesis be conducted by a suitable independent group. We further propose that critical epidemiological studies be devised and undertaken."

### **The Truth Barrier**

<http://thetruthbarrier.com>

Truth, like a cat, jumps at a particular moment, on its own terms, when nobody is looking. They've conditioned us to look steadfastly, in a collective trance, only at the "reality" created by their bubble-makers — by their industries, ideologies, mass beliefs, mass trivias, and mass fears.

## **Paradigms and power in science and society**

Comparing mainstream claims in science and technology and received wisdom in society with the published record, we defend honest, accomplished, independent minded and often heroic scientists and their good science against the mudslinging, false arguments, ad hominem propaganda, overwhelming group prejudice and internal science politics of the paradigm wars of cancer, HIV/AIDS, evolution, global warming, collider physics, health, medicine and nutrition, measuring truth only by the professional and scholarly literature in peer reviewed journals, well researched books, and the investigative reporting and reviews of thoughtful and informed if often unconventional academics, philosophers, researchers, scholars, authors, and journalists too often scorned, shortchanged or damned by publicly irresponsible scientists and other authorities living off the status quo, their running dog lackeys among old media editors, unthinking science reporters, pharma activists and other invested parties, and their misguided congregation of politicians, officials, charity workers, foundation staff, celebrities, and the confused but trusting general public who assume that leading scientists are not subject to the laws of human nature.

Honest inquiry after truth, which is the noblest calling of the noblest men. – Arthur Schopenhauer

What is wanted is not the will to believe, but the wish to find out, which is the exact opposite. -
